The Business Tide Is Still Rising

Five years ago timid business men, all over the world, felt that the tide of business prosperity must soon turn—that the pendulum must shortly swing backward to the other side—that rising values, extensive investments of savings funds, the enormous increase in volume of business in every line, must bring the dreaded reaction; must bring "hard times."

There are not so many of these timid people now—but there are still some who are afraid of their own shadows in a business way; and who see evil portent in every speck on the business horizon.

A great man once defined a pessimist as "one who sees two evils where but one exists, AND ACCEPTS THEM BOTH." Occasionally a merchant justifies this definition.

The real BUSINESS OPTIMIST is he who refuses to see even one evil where two exist—or to accept either.

As a matter of fact, the wisest business men (not the most optimistic—but the most far-seeing) believe, at the present moment, that BUSINESS FLOOD-TIDE IS A LIFE-TIME WAY!

With usual and harmless fluctuations, BUSINESS IS GOING TO BE BETTER AND BETTER EVERY YEAR FOR THE REST OF OUR NATURAL LIVES—so that WE should not spend much time worrying about what we will do when "hard times" come again. AND, as always, in good and poor times,

The merchant who advertises most judiciously is going to be the biggest merchant in his line; and the one who is "next best" in advertising will be "next best" in standing and prosperity.
